

Experiment - 5

Student Name: Archita Srivastava

Branch: BE-CSE

Semester: 5th

Subject Name: Project Based Learning in Java

Subject Code: 23CSH-304

UID: 23BCS12459

Section/Group: KRG-2B

Date of Performance: 24/9/25

Aim: Create a menu-based Java application with the following options. 1. Add an Employee 2. Display All 3. Exit If option 1 is selected, the application should gather details of the employee like employee name, employee id, designation and salary and store it in a file. If option 2 is selected, the application should display all the employee details. If option 3 is selected the application should exit.

Objective: To combine object-oriented programming, file handling, and menu-driven console interaction. **Procedure:**

1. Present a menu:

- a) Add Employee
- b) Display All
- c) Exit

2. On choosing Add, take input for:

- a) Employee Name
- b) Employee ID
- c) Designation
- d) Salary

3. Write this data to a file.

4. On choosing Display, read and display all employee data from the file.

5. Exit on selection of option 3.

Sample Output -

Menu:

- 1. Add Employee
- 2. Display All

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Discover. Learn. Empower.

3. Exit

Enter choice: 1

Name: John

ID: 1001

Designation: Manager

Salary: 75000

Employee added successfully!

Enter choice: 2

Employee List:

John | 1001 | Manager | 75000

Code -

```
package intro_day1;
import java.io.*;
import java.util.*;

class Employee { private
String name; private String
id; private String
designation; private double
salary;

public Employee(String name, String id, String designation, double salary) {
this.name = name; this.id = id;
this.designation = designation;
this.salary = salary;
}

public String toFileString() {
return name + "|" + id + "|" + designation + "|" + salary;
}

public static Employee fromFileString(String line) { String[] parts =
line.split("\\|"); return new Employee(parts[0], parts[1], parts[2],
Double.parseDouble(parts[3]));
}

public String toString() {
return name + " | " + id + " | " + designation + " | " + salary;
}
}
```

```
public class practice { private static final String
FILE_NAME = "employees.txt"; private static Scanner sc =
new Scanner(System.in);

public static void main(String[] args) {
while (true) {
System.out.println("\nMenu:");
System.out.println("1. Add Employee");
System.out.println("2. Display All");
System.out.println("3. Exit");
System.out.print("\nEnter choice: ");
int choice = sc.nextInt();
sc.nextLine();

switch (choice) {
case 1:
addEmployee();
break; case 2:
displayAll();
break; case
3:
System.out.println("Exiting...");
System.exit(0); default:
System.out.println("Invalid choice! Try again.");
}
}
}

private static void addEmployee() {
System.out.print("Name: ");
String name = sc.nextLine();
System.out.print("ID: ");
String id = sc.nextLine();
System.out.print("Designation: ");
String designation = sc.nextLine();
System.out.print("Salary: ");
double salary = sc.nextDouble();
sc.nextLine();

Employee emp = new Employee(name, id, designation, salary);

try (BufferedWriter bw = new BufferedWriter(new FileWriter(FILE_NAME, true))) {
bw.write(emp.toString());
bw.newLine();
System.out.println("Employee added successfully!");
} catch (IOException e) {
System.out.println("Error writing to file.");
}
```

```
}

private static void displayAll() {
    System.out.println("\nEmployee List:");
    try (BufferedReader br = new BufferedReader(new FileReader(FILE_NAME))) {
        String line; while ((line = br.readLine()) != null) { Employee emp =
            Employee.fromFileString(line);
            System.out.println(emp);
        }
    } catch (FileNotFoundException e) {
        System.out.println("No employees found.");
    } catch (IOException e) {
        System.out.println("Error reading file.");
    }
}
}
```

Output -

```
Menu:
1. Add Employee
2. Display All
3. Exit

Enter choice: 1
Name: Mandeep
ID: 10854
Designation: Engineer
Salary: 1000000
Employee added successfully!

Menu:
1. Add Employee
2. Display All
3. Exit

Enter choice: 2
|
Employee List:
Mandeep | 10854 | Engineer | 1000000.0
```
